

SENATOR KELLY: That is correct Senator Clark and the State Patrol would like to have a central office available that they in turn could report to that would file and send these on to the national and in visiting with the State Patrol, they did not want the bookkeeping responsibility. We have a professor at Kearney State College that would be delighted to do this. A man by the name of Glenn Underwood.

SENATOR CLARK: That is fine with me.

PRESIDENT: Senator William Nichol.

SENATOR NICHOL: Mr. President, I would like to ask Senator Kelly a question. If we have somebody there already who can do it, why doesn't he do it for nothing if he is already on the pay roll? Why do we need the \$2,400? I realize it is a small amount, why doesn't he just do it.

SENATOR KELLY: That probably will be the way it will end up should we refuse to appropriate the money. But, it would appear to me that by this appropriation we in the Legislature say that we would like to have a central reporting agency to keep track of these and this would be the reason for the vote.

SENATOR NICHOL: Thank you. I just don't like to set up another entity anywhere along the line that will require more funding next year. If this gentleman will be so good as to do it, I think he should do it.

PRESIDENT: Senator George.

SENATOR GEORGE: I call for the question.

PRESIDENT: There are only...well alright. Are there five seconds? Yes. The question is shall the debate now cease. Have you voted? Record.

CLERK: 23 ayes, 2 nays.

PRESIDENT: Motion fails. Senator Keyes.

SENATOR KEYES: Mr. Speaker, I would like to ask Senator Kelly a question. Senator Kelly when you talk UFO's is that the United Farm Organization, or what are you talking about?

SENATOR KELLY: This is a nick-name given to astronomical phenomena known as Unidentified Flying Objects.

SENATOR KEYES: You mean we got to the floor of the legislature and we are talking about them?

PRESIDENT: Senator Shirley Marsh.

SENATOR MARSH: Mr. President, if this is such a marvelous idea then it should have been presented at a public hearing in my estimation. I rise to oppose this amendment.

PRESIDENT: Would you close your argument on your motion Senator Kelly. The question is the adoption of Senator Kelly's amendment. We will find out what for. Have you all voted? Alright, make a record vote. Have you all voted? He mistakenly punched the button, do you want him to keep it open longer, Senator Kelly?
